Dear Mr Adarsh,

Firstly I wish to place my thanks that you have taken up the initiative of safe disposal of Ewaste. I assure you of my full support in which ever way I can to make this initiative successful on the ground. This started off as a project in one residential complex by a 9th grade student and today it is in its 4th year of successful running and has achieved many milestones and also has a reach of 30+ supporting organizations (schools & residential complexes) across Mumbai. Attached is a pamphlet that is placed along with the Ewaste collection bin that details the type of items that can be dropped in. As I mentioned for larger items, we can arrange pick up, but are limited by the availability of pickup vehicle and volumes to be picked up. To the extent possible we try to arrange the earliest clearance. A collection bin/ or a designated area clearly marked as a Ewaste drop off point, helps to act as a reminder to people to safely dispose the Ewaste. Please note that it is not safe to allow the collection to overflow or remain unsupervised as it contains toxic materials & hence recommended that it be kept in a separate area and cleared with minimum threshold quantities as per logistic convenience.

Kindly note that IDF's role is limited to that of a facilitator for the process of collection and disposal and spreading the message of need for safe disposal of Ewaste.

Sharing a link on the Bal Gurukul initiative undertaken by IDF. <http://www.idf.org.in/bal-gurukuls.html>

Hope this answers your queries.

Please feel free to reach out to me for any other specific inputs/ support you need while implementing this in your locality.

warm regards
Shreeja
